## Track bed works of the sub-section Venta de Banos junction: Valladolid-Burgos and Leon-Palencia-Burgos connections and services for follow up works

**2011-ES-93091-P**

Part of Priority Project 3

The Action contributes to the implementation of Priority Project 3 (High-speed railway axis of southwest Europe), by addressing the link of the Madrid-Segovia-Valladolid HST line with the Basque Country-French border HST line. Furthermore, it also contributes to the implementation of the PP19 North-Northwest HST corridor.

The Action covers the construction of 7.94 km of high-speed railway track bed in two connections of the Venta de Banos junction, including two viaducts. One of the connections is located in the Valladolid-Burgos HST line, has a length of 4.64 km and it will be made of double track in UIC gauge. The other connection is located in the Palencia-Burgos HST line. It has a total length of 3.30 km in UIC gauge and is composed of a double track stretch of 0.65 km length and four single track stretches with a total length of 2.65 km.
